

ETTORE CIARCIA - CLOUD & KUBERNETES ENGINEER

WORK EXPERIENCE

SUSE - Premium Engineer

-  Nov 2024 - Present
-  Nuremberg, Germany (Full Remote)
- Deliver dedicated, high-tier technical support and architecture guidance for mission-critical enterprise environments running SUSE Cloud Native solutions.
 - Troubleshoot, debug, and resolve complex issues across Kubernetes clusters, container runtimes, storage, and security layers to ensure minimal downtime and business continuity.
 - Conduct deep-dive Root Cause Analysis (RCA) for critical severity incidents (Severity 1/2) and collaborate directly with product engineering and open-source upstream maintainers.
 - Perform cluster health checks, version upgrade assessments, and proactive maintenance to optimize client performance and operational resilience.
- Technologies involved:** RKE2, Rancher, NeuVector, Longhorn, Kubernetes, Linux, Helm, Calico, Cilium

SIGHUP - Cloud & Kubernetes Engineer

-  Apr 2023 - Nov 2024
-  Milan, Italy (Full Remote)
- Implemented CNCF technologies for clients across various industries, managing the deployment of networking, storage, monitoring, and disaster recovery solutions within Kubernetes clusters.
 - Actively participated in a major Kubernetes upgrade campaign (25+ clusters), resulting in **over 100** version upgrades with minimal downtime and no breaches of error budgets. Enhanced expertise across a wide spectrum of internal cluster services through this initiative. I executed these operations on leading cloud providers, as well as on-premises environments utilizing vSphere.
 - Participated in overnight rotations for 24/7 on-call service and monitored high-traffic live streaming services (>2000 requests/sec).
- Technologies involved :** Kubernetes, Grafana, Prometheus, Velero, NGINX Ingress Controller, AWS, Azure, Terraform, Ansible, Kong Gateway

Epsilon S.r.l - Cloud Engineer

-  Nov 2021 - Apr 2023
-  Naples, Italy (Hybrid)
- Proficient in infrastructure provisioning utilizing Infrastructure as Code (IaC) policies across leading cloud providers via Terraform Cloud or with self managed state (25+ projects). Experience in designing and implementing pipelines for seamless container deployments on Kubernetes and Amazon Elastic Container Service (ECS).
 - Migrated an entire project and all its components from Docker Swarm (on premise) to Kubernetes (OKE) and created CI/CD pipelines for all services to enable automatic build and deployment.
- Technologies involved:** Kubernetes, Docker, Terraform, Linux System, AWS Services (EKS, ECS, ECR, EC2, VPC, Lambda,S3, CDN, Pipeline Stack, IAM), Oracle Cloud

CSC Informatica - System Administrator

-  May 2019 - Feb 2021
-  Avellino, Italy (On Site)
- Orchestrated the IT infrastructure and network connectivity for a medical clinic (140+ workstations and lab equipment), executing an end-of-life device migration campaign that improved system security and reliability.
 - Architected an end-to-end cloud data pipeline using IoT sensors (Raspberry Pi), AWS Lambda, Apache Kafka, and MongoDB to ingest, process, and map real-time road accident telemetry.

PERSONAL INFO

-  ettoreciarcia.tech@gmail.com
-  [ettoreciarcia](#)
-  [ettoreciarcia.com](#)
-  Avellino, Italy
-  CET / CEST - UTC+1/+2

TALKS

- Linux Day Benevento 2025
- Linux Day Benevento 2024
- Kubernetes Workshop Bologna 2024
- TechHero Rome 2024
- Linux Day Benevento 2023
- Complete list of talks (7) [here](#)

CERTIFICATIONS

- Golden Kubestronaut
- Certified Kubernetes Security Specialist
- Terraform Associate 003
- Certified Kubernetes Administrator
- AWS Solution Architect Associate
- Complete list of acquired certifications (24) [here](#)

SKILLS

- Cloud Services
- Infrastructure as code
- Containerization
- Operating System
- Networking
- Security
- Virtualization

MAIN TECHNOLOGIES

- AWS
- Kubernetes
- Terraform
- Linux System
- Containerd
- Docker
- Nginx
- Prometheus
- Grafana
- Velero
- Oracle Cloud
- Ansible
- ELK Stack

PROGRAMMING LANGUAGES

- Bash
- Python
- C/C++

LANGUAGES

- Italian (Native)
- English (B2)

EDUCATION

- Accenture - Cyber HackAdemy
- Federico II, Naples
-  May 2021 - Jan 2022
- BE Computer Engineering
- Federico II, Naples
-  Ongoing
